

Magnetic Cartridge (Magnetic Rod)

Purpose

Magnetic cartridges are used for separating ferrous particles from any kind of raw material which is in Granular form/ Powder form and Liquid Form also.

Construction

- These cartridges consist permanent magnets. It is available in Nd Fe B grade magnets and Strontium ferrite magnets. Outer tube is made by SS304 /SS316 grade steel (Non magnetic steel). These cartridges also provided tapping on both end for mounting/clamping purpose.

Maintenance

These cartridges are required to cleaning periodically for getting good results, the cleaning frequency is decide by the operator.

Special features

It can be available with “**De-magnetizing facility**” so that particles can be easily removed from the magnetic surface for avoiding laborious work and productivity can be increased.

Advantages

- Fatigue reduces. (save energy)
- Increasing productivity.
- Increasing quality.
- No Electricity is required.
- Absolutely environmentally friendly (No gases chemicals generated)
- No maintenance is required.

Area of application:- Food industries, Plastic industries, Chemical industries, Automobile industries etc.

Available Sizes

Model Code No.	Approximate Size
018-01-01	Dia.28 mm
018-01-02	Dia.35 mm
